AP Biology Lab #9. AP Biology Lab #9.
Transpiration Lab. INTRODUCTION. The
amount of water needed daily by plants
for growth and maintenance of tissues is
small in comparison to the amount that
is lost through the process of
transpiration and guttation. If this water
is not replaced, the plant will wilt and
die.

AP Biology is the worst to get behind in. I'll help if I can :-)

The advantage of closed stomata for a plant when water is in short supply is that water vapor is not lost from inside the plant to the surrounding atmosphere. The disadvantages are that the plant cannot go through the gas exchange process, and therefore cannot preform ...
