ISTJ Careers to Avoid. It is important to note that any personality type can be successful in any occupation. However, some occupations are well suited to the natural talents and preferred work style of the ISTJ, while other occupations demand modes of thinking and behavior that do not come as naturally to the ISTJ.

The Best Careers for ISTJ Personality Types | Truity

You'll take your test on a computer at a designated test site. The exam is called a "variable-length adaptive test" because your number of correct and incorrect answers will partly determine how long the test is. You'll answer 75 to 265 multiple-choice questions based on your performance as you work through the test.
