Garden Guide: 20 Proven Lessons on How to Build Your Own ...

One of the best gardening tips you'll ever get is to plan your new garden near a water source. Make sure you can run a hose to your garden site, so you don't have to lug water to it each time your plants get thirsty. The best way to tell if plants need watering is to push a finger an inch down into the soil (that's about one knuckle deep).

You don't have anything to prove. Too many of us walk through life feeling as if we don't measure up. We always seem to thirst for more. We think if we could only work harder or be better, we could be enough. But the truth is, we will never be enough. And thankfully, we don't have to be. In this 8-session study, Jennie Allen walks through key passages in the Book of John to demonstrate how ...
