Pathophysiology can be an intense class because of all the information you have to learn in such a short time frame. However, I would say that pathophysiology is one of the most important classes you will take in nursing school because it helps you understand why a patient is presenting with certain signs and symptoms and why you are performing those certain nursing interventions.

Pathophysiology Study Tips for Success - Registered Nurse RN

Pathophysiology is a pretty difficult class for your nursing degree. The best way to pass it is to understand how it relates to your job and real life. This article from LSU at Alexandria has some excellent examples. It points out correctly that doctors and nurses all work as a team to help the patient.
