Perioperative Medicine for the Junior Clinician — Monash ...

Perioperative medicine is an emerging, multi-disciplinary approach which seeks to optimise the care of high-risk surgical patients. It encompasses disciplines such as anaesthetics, surgery, nursing, elderly care, physiotherapy and healthcare management. In this RCoA-endorsed course, developed by anaesthetists at University College London (UCL) Hospitals, you'll learn the key concepts you need to improve patient safety and reduce healthcare costs.

Free, Online Perioperative Medicine Course from UCL

Aims and scope. Perioperative Medicine is an open access journal that publishes highly topical clinical research relating to the perioperative care of surgical patients. Its essence is the distillation, examination and application of clinical evidence to improve surgical outcome. Modern perioperative medicine is a true multidisciplinary speciality and the journal welcomes research in all areas relevant to perioperative medicine from any healthcare professional.
