Taxes And Business Strategy Solution

Effective tax planning will follow the decision rule of maximizing after-tax returns, considering all the tax implications involved in various revenue streams and various cost heads. Both implicit and explicit taxes for all the parties involved in the transaction are considered. This will involve analyzing various options including location of value adding activities, the time when revenues or costs are recognized, the investments involved, including the sources of finance such as equity or debt

Taxes & Business Strategy Solution Manual | Chegg.com

When facing a business decision in which taxes play a role, a planner employing efficient tax planning considers all of the costs, tax and nontax, that will be incurred by all of the parties to the transaction. In addition to the explicit tax payments that will result from the transaction, the planner considers implicit taxes that parties will pay in the form of lower before-tax rates of return on tax-favored investments as well as any other non-tax costs associated with the transaction such ...
